SECTION 4: FIRST AID MEASURES

General Advice  Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Do not leave the victim unattended. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled  Move to fresh air. If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact  Rinse well with water. If on clothes, remove clothes. If skin irritation persists, call a physician.

In case of eye contact  Flush eyes with water as a precaution. Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed  Keep respiratory tract clear. Do NOT induce vomiting. If symptoms persist, call a physician.

Flash Point: 219°C (426°F), Method: Cleveland Open Cup.
Autoignition temperature: 343°C (649°F)
Unsuitable Extinguishing Media: High volume water jet.
Wear self contained breathing apparatus for the firefighting if necessary.

SECTION 6: ACCIDENTAL RELEASE MEASURE

Personal Precautions:  Use personal protective equipment. Ensure adequate ventilation.
Environmental Precautions:  Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods for Cleaning Up:  Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

water in accordance with local and national regulations.
Normal measure for preventive fire protection.

Fire and Explosion

STORAGE
Requirements for Storage Areas and Containers: Keep container tightly closed in a dry and well-ventilated place. Observe label precautions. Electrical installations I working materials must comply with the technological safety standards.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING MEASURES
Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to handful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

PERSONAL PROTECTIVE EQUIPMENT
Respiratory Protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Full-Face Supplied-Air Respirator. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand Protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye Protection: Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and Body Protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: protective suit, safety shoes.

Hygiene Measure: When using do not eat or drink. When using do not smoke.
Wash hands before breaks and at the end of workday.
